

Spellchecker

The Spellchecker is a great tool for kids (and parents) who have trouble with spelling and want something that is easy to access and also corrects phonetic spelling. It includes content from the Collins English Dictionary of Spelling and Hyphenation and provides phonetic spelling correction for over 180,000 words.

- Phonetic Spell Correction: Type "nolij" and find "knowledge".
- Confusables: Words such as homonyms and spelling variants that are often confused. e.g. here or hear.
- Word Builder: enter up to 12 letters and it will return as many possible solutions (starting with the longest word first) ranging from 12 letters to 3, great for all kinds of popular word games.
- Crossword Solver: Enter ? to find missing letters to help with crosswords.
- Anagram Solver: Turn a series of letters into a word.
- 6 Games - Anagrams, Hangman, Word Train, Word Blaster, Word Deduction, Spelling Bee
- Calculator
- Metric and currency converter: Metric, Imperial and Currency Converters.
